

Review Form 1.6

Journal Name:	International Astronomy and Astrophysics Research Journal
Manuscript Number:	Ms_IAARJ_85198
Title of the Manuscript:	The Proof that Gravity Field Equations of General Relativity Have No Linear Wave Solutions Under Weak Condition and Problems Existing in the Formula of Gravity Radiation
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaliaarj.com/index.php/IAARJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>The manuscript is ok; however, I recommend some changes that can improve the spread:</p> <p>a) the title "The <u>Proof</u> that gravity..." it is too self-referential, you assume that it's a "proof" . The "proof" of a <u>theory</u> must be emanated from the scientific community (until then, it's just a hypothesis). So, I recommend as a title : "Gravity Field Equations of General Relativity Have No Linear Wave Solutions Under Weak Condition"</p> <p>b) The references are poor, other references must be inserted and must be with DOI reference.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
