Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Aim: The aim of this study was to assess of some hematological, coagulation and immune parameters among male oil refinery workers in Port Harcourt, Nigeria.</p> <p>Conclusion: In conclusion, based on the findings, duration of exposure can therefore be considered as a risk factor and age was considered not a risk factor as to cause any aberrations in the studied parameters.</p> <ul style="list-style-type: none"> This conclusion did not perfectly justify the aim of this research because it only pointed out duration as a risk factor in contrast to the aim which was to assess some hematological, coagulation and immune parameters The conclusion should be rephrased to include the summary of effects on the hematological, coagulation and immune parameters as well as indicating duration as a risk factor among male oil refinery workers in Port Harcourt, Nigeria. 	
Minor REVISION comments	<p>Page 1: Abstract (Results)----Line 20</p> <ul style="list-style-type: none"> Abbreviations such as APPT, Hb and PCV should be written in full at the first mention with the abbreviation in a bracket before subsequent use of abbreviation only. This should be applied to other abbreviation in other sections of this manuscript <p>Page 1: Introduction---Line 5</p> <ul style="list-style-type: none"> CO₂ should be written appropriately as CO₂ <p>Page 5: Results and Discussion----Line 6</p> <ul style="list-style-type: none"> Table 1 Demographic Details of Participants in the Study should be written with the right punctuation as Table 1: Demographic Details of Participants in the Study 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
