Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalibrr.com/index.php/IBRR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>(1) Please state sampling technique used and how you match control with test subjects.</li><li>(2) Was the OGTT done for all the participants, if yes why</li><li>(3) What benefit(s) to the participants</li><li>(4) Conflict of interest?</li></ol>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	There is a physiological rise in blood volume leading to dilution anaemia and a dip in blood pressure maximum at 20 <sup>th</sup> week rather than your assertion of abnormal rise in haemoglobin concentration in the 2 <sup>nd</sup> trimester leading to raised systolic and Diastolic blood pressure.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
