

Review Form 1.6

Journal Name:	International Journal of Advances in Nephrology Research
Manuscript Number:	Ms_IJANR_82731
Title of the Manuscript:	Thyrotoxicosis Hypokalemic Paralysis
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijanr.com/index.php/IJANR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Please crosscheck general punctuations	
Minor REVISION comments	Since thyroidectomy is a way of reducing the increased thyroid level seen in TPP, I would suggest if the author(s) can mention natural ways (foods, beverages, etc) to boost potassium level in the body	
Optional/General comments	The article (case study) is a good one, the writeup adequately presented the patient, with relevant biomarkers of TPP. Adequately, the interventions also reversed the clinical abnormalities seen. For the sake of the common man, please provide the full meaning of every acronym/abbreviation used in the article at every first instance at which they were used	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
