

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Journal of Biochemistry Research &amp; Review</a>
Manuscript Number:	Ms_IJBCRR_61351
Title of the Manuscript:	Adsorption of colour pigments from palm kernel oil onto biopolymer prepared from periwinkle shell waste
Type of the Article	Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Manuscript should be check for English grammar and should submit revised manuscript as per journal format	
<b>Minor</b> REVISION comments	Research work is carried out on material particle size of 100 µm and was reported in article but what about other other size 300, 250, 200, 150µm. Do you checked these size material for sorption study of as periwinkle shell powder (PSP).	
<b>Optional/General</b> comments	These work is sufficient and well-known chemical procedure is adopted to determine various adsorption isotherms (Langmuir, Freundlich, Temkin and Dubinin – Radushkevich). The finding are reported as per standard procedure. The manuscript are as per journal format include abstract , review work , experimental, result and conclusions . Overall the present work is found to be applied in the adsorption field .
