

Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_78773
Title of the Manuscript:	ANTIBACTERIAL ACTIVITY, ANTIOXIDANT POTENTIAL AND STIGMASTEROL ISOLATION FROM <i>Laggera aurita</i> Linn (ASTERACEAE)
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Why is the plant being studied for their antibacterial and antioxidant properties? The connection between these actions and the traditional uses should be explained.2. Please specify the solvent used in maceration. As well as the solvent-to-plant ratio.3. The ethyl acetate fraction has been referred to by several terms, including ethyl acetate fraction crude extract, ethyl acetate crude extract, and ethyl acetate fraction. The most appropriate word is ethyl acetate fraction. Please look through the Table and Figure as well. For example; In Table 2's heading, the term ethyl acetate should be replaced with ethyl acetate fraction. In Table 3's heading, the term crude extract should be replaced with ethyl acetate fraction.	
Minor REVISION comments		
Optional/General comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
