PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Author(s) should state each phytochemical components methodology both qualitative and quantitative in the materials and methods section.2. References numbers 2, 10, 11 and 13 are too old, authors should replace them with recent citations.3. There should be a table showing the qualitative results before presenting the quantitative results in Figure 1.0.	
Minor REVISION comments	Oxalates and steroids are not included in the materials and methods sections as phytochemicals analysed, therefore author(s) should include them.	
Optional/General comments	The study is well researched and the manuscript is technically sound with potential interest in phytomedicine, I therefore recommend its acceptance after effecting the necessary corrections.
