Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. I have made some corrections on the face of the MS, some of the words been replaced to fit into and considering appropriateness of the context.</p> <p>2. The high crossability potential for accessions of <i>L. culinaris</i> ssp. <i>orientalis</i> and <i>L. culinaris</i> ssp. <i>culinaris</i> suggested ssp. <i>orientalis</i> as the wild progenitor of lentil (Ladizinsky et al. 1984).. ? no clarity. However, there are limited successful reports ...? on application of these in lentil. Many successful studies have been carried out in this field...? Please put up in proper perspectives.</p> <p>3. Several references cited in the text are not available in the list of references. Similarly, references listed are missing in the text. Some of the references in the list are not in the desired format of the Journal, marked in red may be revisited. Authors are advised to critically go through the manuscript and revise.</p> <p>1) Alghamdi et al. 2014; 2) Andeden et al. 2015 3) Dikshit et al. 2015; 4) El-Nahas et al. 2011; 5) Hendre et al. 2007 6) Idrissi et al. 2015; 7) Powell et al. 1996; 8) Sarker et al. 2009 9) Sharma et al. 1996 10)Sonnante and Pignone 2001; 11)Toklu et al. 2009; 12)Tsanakas et al. 2018 13)Zohary 1996</p>	
Minor REVISION comments	Made some corrections on the face of the MS, those may be included while revising the manuscript.	
Optional/General comments	The Manuscript is very well written covering most of the aspects of Lentil Breeding.	

PART 2:
