

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_73078
Title of the Manuscript:	Innovative methods to assess the true genetic potentialities of newly developed inbred lines of early segregating generation (F4) in baby corn (Zea mays L.)
Type of the Article	Research

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Consider revising the title of the manuscript. There is no innovative method in the study.            Add baby corn in key word.            References quoted in text are missing in the reference list. Similarly, the listed references are missing in the text.            Discussion is too short to justify /support the results. Therefore, result and discussion part may be rewritten incorporating the discussion.</p>	
<b>Minor</b> REVISION comments	<p>Revision may be made in Abstract            Tables may be re-written to avoid the paper length. For example-tables may be trait wise with 5 best combiners</p>	
<b>Optional/General</b> comments	<p>Introduction is Okay            Materials and method is okay            Some comments have been given on the paper itself.            Paper may be accepted after making necessary revisions.</p>
