PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Manuscript compares between 9 pesticides (chemical and bio) against B tabaci as a vector for the MYMV virus.</p> <ol style="list-style-type: none">1. Introduction is not up-to-date and kind of weak, please consider adding more recent references to support the idea of the study and to show previous effects of pesticides against this virus and or its vector.2. M&M need extensive work, especially adding the section about data processing and statistical analysis.3. Results and Discussion section is very confusing, please consider re-writing in short informative sentences.	
Minor REVISION comments		
Optional/General comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
