

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_78319
Title of the Manuscript:	N2 in capsicum and K and N2 fertigation levels inside of Polygamy
Type of the Article	Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Yield parameter may be added in justification to per cent nutrient increase	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"><li>• Latest references may be added</li><li>• Proper justification on % nutrient increase and cost economics for 37 split applications</li></ul>	
<b>Optional/General</b> comments	The authors have presented interesting information regarding increase in nutrient content in their manuscript entitled " <b>N2 in capsicum and K and N2 fertigation levels inside of Polygamy</b> " and have put forth a lucid discussion on the recent advancement in this field of study. Thereby, I suggest this article could be considered for publication after suggested minor modifications has been carried out.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
