Title of the Manuscript:	N2 in capsicum and K and N2 fertigation levels inside of Polygamy
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- This work has carried out experiments to come up with an integrated use of chemical and organic fertilizer. It is useful and practical solution to enhance the crop production for sustainable development. However, the references are quite old. The author should cite additional relevant articles or books recently published in the last 5 years.	
Minor REVISION comments	<ul style="list-style-type: none">- It is advisable to include a conclusion paragraph. It would help to emphasize the research results and its meaning.	
Optional/General comments	<ul style="list-style-type: none">- Some minor errors have been revised directly in the manuscript, the author should check again if there is still any typos error.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
