General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1- Introduction section should be written in multi paragraphs not one long paragraph. so, reader clearly understand the content. I suggest rewrite the introduction section. 2- it would be better to draw a figure for location study. 3- Author must provide more information for Experimental materials	
Minor REVISION comments	1- The title is relevant, but it is somewhat confusing and sounds not interesting. I suggest rewriting the title to be clear, and more interesting. 2- The conclusion answers the aims of the study and is supported by results, but it is missing future work. Therefore, It would be better to inform future research opportunities.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
