General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction section: convey important problems specifically, where you will examine these problems, discuss them until you find the best solution to solve the problem. Communicate clearly, use appropriate and current references.</p> <p>Methodology section: You only convey the data retrieval technique. Add in clear, statistical data processing you use. Also give reasons why you use these statistics, prove that they are in accordance with the discussion you present.</p> <p>Result n Discuss section: you should discuss the data more deeply. currently you only describe the data obtained from the field. if there is discussion, very little. you need a lot of revisions in this section. add to each sub-chapter, "what is it like" "why is that" "conformity with other people's opinions or findings".</p> <p>Conclusion: We suggest that the conclusions from the findings and discussions that you do are presented in a separate section, namely the "conclusion" chapter.</p>	
Minor REVISION comments		
Optional/General comments		

Review Form 1.6
