

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_83116
Title of the Manuscript:	Effective drought index based analysis of drought characteristics and its propagation in the Vindhyan region
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Under 'Data Availability', you talk of 'blocks'. What are they? How have they been defined? Please explain.</p> <p>When you state that there were droughts in the selected area, it is based purely on the EDI. How do you validate these findings? Did you use any other statistical method or dataset to validate your results? This is a mandatory requirement, as otherwise you cannot possibly make a statement based only on your findings.</p> <p>This work is very localized. How do you suppose your findings to be important globally? What will the scientific community gain from your findings?</p>	
Minor REVISION comments		
Optional/General comments
