### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>*A lot of grammatical mistakes and English usage problem. Many terms and sentences are not understandable. Improvement by native speaker is needed.</p> <p>*Tables are poorly presented. E.g. first row of Table 1 is not defined; Brackets beside the number is Table 2 do not correspond to the brackets in the title (row 2). Table 2 is too big and just a lot of numbers are seen.</p> <p>*The concept of accuracy is missing: Table 3 shows the results of speed, temp, moisture etc with 2 decimal places. I wonder how the accuracy could be achieved to that level.</p> <p>* There is only one 2021 ref and the rest are very old references.</p>	
<b>Minor</b> REVISION comments
