

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_83836
Title of the Manuscript:	Growth Performance of Principal crops in Karnataka state in India
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Tables have to be changed to better form. Too much information in one table. There are 4 separate figures for each crop in the paper, but there is no connection between crops. It is difficult for readers to compare the features (area, production and productivity) within the crops. It has to be changed to simple and clear version and reasons "why such kind of changes have occurred for each crop" should be well discussed. Conclusion section has to be clearly stated.	
Minor REVISION comments	The title "Growth Performance of Principal crops in Karnataka state in India" and subtitles of the research article has to be changed to better appealing form.	
Optional/General comments	Proofreading has to be issued for minor errors (spelling, punctuation and formatting).	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
