PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> The authors mentioned and refer to "significant differences " in the data but did not include statistical significance analysis (Analysis of variance) of the data. The author mention under M+M that the experiment was a "complete randomised block design" but there is no information about the design, figure (layout) of statistics about the layout. <p>Also, the authors refer to methanogen population but did not investigate methanogens. There aren't any results on the methanogen population.</p> <p>The authors need to analyse the data using analysis of variance to establish significant differences among the treatments.</p> <p>This manuscript has serious shortcomings. Please see attached Word document</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
