

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_85898
Title of the Manuscript:	Optimization of Operational Parameters for Axial Flow Paddy Thresher using RSM
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Grammar of manuscript is poor. It must be checked very carefully. I have put some corrections with red coloured words and wrong words of some part of manuscript is crossed lined.</p> <p>I have checked grammar of some part only.</p> <p>Contents of the manuscript is good. It can be accepted after due corrections.</p>	
Minor REVISION comments	<p>The variables should be put with proper subscripts. Tables are poorly formatted and not look attractive.</p>	
Optional/General comments	<p>References are arranged alphabetically not serially. Reference with a serial number makes easy to cross check.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
