

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_86350
Title of the Manuscript:	Impacts of future climate and land use changes on water yield in the Arpa Catchment
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1- I can assume that this manuscript is written by default. 2- Great topic and title with very weak and unsatisfied content. 3- This manuscript is not clearly presented as it is the interaction between hydrology, land use, and climate change. 4- There are significant factors that must be used such as Lithology, geology, geomorphology, etc. 5- The LULC classification with ten classes is a big challenge even though the author did not mention which method they used for classification, only mentioned supervised classification. 6- Extensive editing of the English language and style is required. 7- There are also other issues such as the software, models, simulations, etc. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
