

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_88088
Title of the Manuscript:	SORGHUM PHYSIOLOGY UNDER ABIOTIC STRESSES, ESPECIALLY IN DROUGHT
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>As i have mentioned in remarks in the paper, It seems that there is given a general information on the mechanisms of drought stress tolerance in plants. Except some mentions, the plant sorghum does not figurate anywhere.</p> <p>Where are the indications of tables in the text?</p> <p>Sorghum is C4 plant. May be the author adds some information about the advantages of C4 plants over C3?</p> <p>By my opinion, there is no need of special separation of drought in the title. You may underline this fact in drought –stress sub-title and explain the reason of the special and more detailed consideration of this stress.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
