

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_88187
Title of the Manuscript:	MAPPING SPATIO-TEMPORAL VARIATIONS OF SURFACE WATER AREA OF TANKS IN COIMBATORE CORPORATION USING GOOGLE EARTH ENGINE
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The article is not research, but is purely applied in nature.	
<b>Minor</b> REVISION comments	Since the authors in the text of the article indicate the differences in the terrain, then, in my opinion, it would be necessary to indicate what kind of relief was in each of the considered areas.	
<b>Optional/General</b> comments	I think that the authors should have talked not only about the areas occupied by water in natural reservoirs in the pre-monsoon and post-monsoon periods, but also about the depth of the reservoirs. The research program used by the authors allows this to be done, and the information obtained would increase the value of the research.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
