

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_88439
Title of the Manuscript:	Comparative Assessment of Soil Carbon Sequestration and Carbon dioxide emissions from Agroforestry Systems in Kogi East Nigeria
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"><li>- State a reference for the determination of Carbon dioxide Emissions</li><li>- Elucidate the reasons lead to increasing the carbon stock in Dekina in comparison with other areas</li><li>- Explain why Dekina and Ofu LGAs recorded highest carbon dioxide emissions compared to others</li><li>- Delete repeated reference as shown in the modified manuscript</li></ul>	
<b>Minor</b> REVISION comments	Correct some grammar mistake as shown in the modified manuscript Add information about soils types and some properties such as the texture which may help for explain the differences in Carbon sequestered in the different communities	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
