

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_89138
Title of the Manuscript:	Determination of Soil Parameters and Pulling Force Requirement of Tapioca Root
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>All the test samples were taken from the field, but the site situation was not introduced, it is suggested to supplement the relevant details.</li> <li>Different parameters have different sampling depths. Therefore, it is recommended to conduct horizontal comparison and analysis of various parameters at the same sampling depth.</li> <li>It can be seen from Table 5 that the root depth is 274.20mm when the pulling force is the maximum (126.00 kgf), and much larger than the mean value (103.40 kgf), so the maximum load should be taken as the reference value in mechanical design.</li> <li>It is suggested to give field test photos of mechanical parameters.</li> <li>All of the variables should be written in italics.</li> </ol>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
