

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_89339
Title of the Manuscript:	Screening for salt tolerance in blackgram (Vigna mungo (L.) Hepper) genotypes during the germination and seedling stages
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The manuscript " <b>Screening for salt tolerance in blackgram (Vigna mungo (L.) Hepper) genotypes during the germination and seedling stages</b> " has a great scientific applications in food security and agricultural aspects. Authors had studied various germplasm with an objective to identify the salt tolerant cultivars. The study was conducted using standard physiological methodology and the data obtained was analysed statistically. Overall the manuscript is meaningfully well written, scientifically robust, well referenced and technically sound. Hence as a reviewer I am recommending to accept the manuscript as it is.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
