### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The study entitled "Diversity of insect visitor's on blossom of <i>Capparis decidua</i> (Forssk.) Edgew (Kair)" makes an important characterization of the floral visiting insects of <i>Capparis decidua</i> throughout practically the whole day, dividing into phases (forenoon, afternoon and evening). The study is important and I suggest its publication after some adjustments. The introduction is focused on the plant ( <i>Capparis decidua</i> ), so it is necessary to talk about floral visiting insects, their diversity and their periods of activity. Also, details are required in 'Material and Methods' and 'Result and Discussion'.	
<b>Minor</b> REVISION comments	Comments in the attached document ( <i>Ms_IJECC_89502(RPSA).doc</i> ).	
<b>Optional/General</b> comments		

### PART 2:
