### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

**Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"> <li>Grammatical errors must be corrected in the whole manuscript.</li> <li>Abstract must be written in prose form and not the way it has been written in sub division's format.</li> <li>Abstract is a summary of the paper must not be too long.</li> <li>The background on FFA does not come out clearly in the introduction especially globally, regionally and Nationally in the manuscript to reflect the problem that requires a solution.</li> <li>Materials are not clearly stated but the method is okay.</li> <li>The results are well stated in the manuscript but then they are not discussed and interpreted satisfactorily the author must relook at them.</li> <li>In conclusion avoid repeating the results and figures simply give a conclusion on the findings in a statement form.</li> <li>On the references depending on the style of use APA format could be better</li> </ul>	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"> <li>Avoid short sentences that are always hanging link to the next sentences so that it makes sense.eg The Araniar River also known as Arani. It flows through the states of Tamil Nadu and Andhra Pradesh.</li> <li>Punctuation marks and formatting may require rechecking on the same.</li> <li>When describing or relating the project to the other do not use words like my research our research its wrong don't personalise , Using the Gumbel's extreme value distribution analysis, <b>our</b> results agree with the study of Bhaga [2] and Mukherjee MK [8].</li> </ul> <p>Simply say Using the Gumbel's extreme value distribution analysis results agree with the study of Bhaga and Mukherjee MK</p>	
<b>Optional/General</b> comments	The manuscript has the originality of the Author and understands the study and what he wants to accomplish
