

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_90031
Title of the Manuscript:	Impact assessment of different level of mycorrhiza on the growth parameters and nutrient content of <i>Capsicum annum</i>
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Tenses are mixed up in the materials and method. The author should use Past tense since it is what was done. Choice of treatment levels was not adequately done. From the results, it seems all parameters tested are on the rise with increasing mycorrhizal application. I expected the author to have included higher doses to have a plateau and a drop in the tested parameters with increasing mycorrhizal application. This will inform the conclusion and recommendation.	
Minor REVISION comments	Minor typos in text	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
