

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Medical and Pharmaceutical Case Reports</a>
Manuscript Number:	Ms_IJMPCR_80987
Title of the Manuscript:	Anti-Tuberculosis Treatment Induced DRESS Syndrome – A Case Report
Type of the Article	Case study

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijmpcr.com/index.php/IJMPCR/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The manuscript is informative. The author should please re-write the structured abstract to reflect:</p> <ol style="list-style-type: none"> <li>(1). Introduction</li> <li>(2). Case presentation</li> <li>(3). Discussion.</li> </ol> <p>In the main manuscript, only the above three headings are necessary. The Fourth heading (CONCLUSION) should be removed and the opinion written under the conclusion should be incorporated into the discussion and repetition through out the manuscript should be avoided.</p> <p>The heading "2). CASE REPORT" should be written as Case presentation. Showing investigation results within the manuscript is not necessary as this amounted to repetition of what had been stated in prose hence lengthening the write-up.</p> <p>Abbreviations should be fully spelt in the places they first appeared in the manuscript before using them alone subsequently.</p>	
<b>Minor</b> REVISION comments	The author should please go through the manuscript and correct typographical errors.	
<b>Optional/General</b> comments
