<u>Minor</u> REVISION comments	<p>-The proposed article on soil erodability in the La Villa-Panama river basin is very interesting even if it is not original. The approach is convincing, and the results are promising, particularly in terms of efficient management of these lands. But some points deserve to be improved, particularly the analytical aspect.</p> <p>-The many spelling mistakes should absolutely be corrected (indicated in the text).</p> <p>-The bibliography must be harmonized in the text and in the list, and it will be better if you add another research that has dealt with the subject well.</p> <p>The other remarks are made in the body of the text.</p>
