

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_78865
Title of the Manuscript:	Integrated management of Root-Knot Nematode (<i>Meloidogyne</i> Spp) using Fresh Organic Manure and <i>Crotalaria brevidens</i> intercrop for improved growth and yield of Tomato
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The article is not clear on whether the two-season data was combined or not. And that the statistical analysis allows for the data to be combined.</p> <p>If available, present the chemical analysis of the cow and goat manure used in the study. It may shed some light on why the goat manure out-performed the cow manure.</p>	
Minor REVISION comments	I made several editorial corrections according to my style of writing. Feel free to accept them	
Optional/General comments	Well written article and easy to read. Also, the results are of great practical application to growers.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
