

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_79311
Title of the Manuscript:	Effect of automated drip irrigation system on yield and water use efficiency of tomato (<i>Solanum lycopersicum</i> L.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Please add the reason you propose the drip irrigation system for tomato growing. Soil reason or system reason or budged reason etc	
Minor REVISION comments	Please inform the soil used for this experiment with the soil characterization. Thus, you can propose the drip irrigation system. In your manuscript no information about the soil for example soil texture, soil porous and other soil physical. Because irrigation (drip irrigation) related with soil physical properties	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
