PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Describe in detail about the importance of biostimulants in sustainable agriculture. The present details are not sufficient for readers. 2. I would appreciate it if you explained the importance of each ingredient that goes into the formulation of the biostimulant. 3. The material method section is incomplete. The authors have described only the preparation of biostimulants, provide methods with references for leaf area estimation, fresh herbage yield, and chlorophyll analysis as well as quality parameter analysis. 4. In detail, please describe the statistical methods you used to analyze the data 5. Have you performed your experiments in triplicate? If so, please include error bars with standard deviation in all graphs. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Explain your results by citing recent references. Recent innovations in biostimulant preparations are described in this article (https://doi.org/10.3390/cells10092428). You may cite this article. 2. There is serious need for English improvement in this manuscript 	
Optional/General comments	<ol style="list-style-type: none"> 1. Typographical errors should be corrected
