

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_83110
Title of the Manuscript:	Correlation and regression studies of growth, yield attributes, yield and equivalent yield of sesamum based intercropping system
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>(1) The conclusion should be to determine which treatment is more appropriate. ABSTRACT: " to identify a suitable intercropping system"</p> <p>(2) The emphases of "ABSTRACT" and "CONCLUSIONS" are different. Please do not use the same statement to summarize.</p> <p>(3) Conclusion is too general. The conclusion only describes the significant correlation of various indicators, and does not explain the deep meaning of the significant correlation.</p>	
Minor REVISION comments	<p>Tab.1. Delete the "PH30" row; Delete "1"; Delete the "Seed yield" column.</p> <p>Tab.2. Delete the "Seed yield" row; Delete "1"; Delete the "Oil yield" column.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
