

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_83633
Title of the Manuscript:	Heterosis in Bread Wheat (Triticum aestivum L.) for Earliness and Heat Tolerant Traits over the Environments
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Since authors have worked on heat tolerant traits, it's a quantitative and complex trait so, authors can include few more below ground traits (Root related traits, which are indirectly related to heat tolerance). It might be difficult to conclude such physiological traits with just few parameters.	
Minor REVISION comments	The importance of heterosis work can be included in the Introduction part Mention the reference for the area, production may be included Significance of earliness and heat tolerance traits need to mention	
Optional/General comments	It was interesting to note that there is a significant difference between parents and hybrids for most of the parameters. Such an excellent still can be presented in better ways.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
