PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<ol style="list-style-type: none">1. The manuscript presents a very straightforward description of the climatic changes that resulted in a substantial loss in wheat production.2. The work point on climate change and weather variability challenges on wheat production. Meanwhile, this work will benefit the breeders to develop suitable varieties for this location in climate change for sustainable yield production.3. This work introduces an idea that appears promising or might stimulate others to plan and develop wheat grow alternatives.4. The title clearly expresses the content of the article. Also, the work has a considerable contribution to a certain area of research and it stimulates discussion of important issues or alternative points of view.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
