PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I suggest modifying the wording of the title as follows: A comparative study on the susceptibility of chickpea cultivars to the insect <i>Callosoproculus chinensis</i> L. and <i>Callosobruchus analis</i> F.	
Minor REVISION comments	In the method of work, it was mentioned (the number of hatched eggs was recorded) but it did not show the method in which the hatching of eggs was detected because the life cycle of the insect is complete inside the seed!!	
Optional/General comments	To document and support scientific research, the work and its results must be strengthened with modern sources, in addition to the sources that have been addressed	

PART 2:
