PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	It is a good study for investigating the interactions and relationship of agronomic variable with the yield and other vegetative parameters during kharif season. This will definitely be a significant information for farmer in India to make proper adjustment in their manuring and spraying program (etc. herbicide and fertilizers.) Therefore, I strongly recommend this article to be publish under this journal since it's within the scope.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
