

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_87149
Title of the Manuscript:	Assessment of genetic variability parameters for yield and its components in soybean [Glycine max (L.) Merrill]
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Check spaces between sentences.</p> <p>INTRODUCTION ...including animal feed, , fertilizer, are 30-45% and 15-24% respectively with tremendous amount of unsaturated fatty acids contents (check punctuation) e for human health(Antalina <i>et al.</i>, 2000) (add space) Present research revealed that soybean proteins prevent 70% for liver cancer, 73% for colon cancer, and 68% for lung cancer cells using human cell line (Aizawa, 2014). Incorrect Reference. Soybean oil has high amount of minerals like copper, Mn, and potassium along with 85% unsaturat g),(add space) number of pods per plant, seed yield efficiency, number of primary branches per plant However-, the lowest GCV(%) Data was taken from 5 randomly selected competitive plants from each row of high yielding and low yielding progeny. But 5 randomly competitive plants from 5 bulk rows of each cross were selected for recording data. It is confuse</p> <p>RESULTS AND DISCUSION Similarly, Ggenetic advance as per cent mean was also classified into 3 categories, low (0-10%) moderate (1</p> <p>Conclusions (g),number of pods per plant, seed y (add space)</p> <p>REFERENCES Aizawa, S. I. 2014. Flagellar World. <i>Elsevier</i>, Incorporated.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
