PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	You have used the "rabi season" in the manuscript, write its English name also for international readers. In Introduction section provide citation/reference for first and second paragraph. Provide citation/reference for Materials and Methods section, if you have adopted the methodology of other research(s). In result and discussion Response of different integrated nutrient management treatments on plant population in meter row length was found non-significant at 20 DAS. What is the reason please explain. The liquid organic manures contain microbial population and plant growth promoting substances that help in improving plant growth, metabolic activities of plants. On what basis you reached to this conclusion?	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
