Compulsory REVISION comments	This review is timely and wide ranging. However, there are numerous inconsistencies, and much editing is needed. First, is the subject "bio-stimulants", "biostimulants", or "bio stimulants"? Acronyms are defined but then not used later. What format will be used for the reference citations? Reference format is not standardized; are the reference #s needed? Some citations are incorrectly formatted. Jeffrey et al. 2011 is not in the references. Reference 81 is not cited. Figure 1 and Tables 1 and 2 are not referenced. Many word choices can be greatly improved. While much of the text can be more concise, the Biochar section should be expanded. Should there be sections 3.6 and 3.7 corresponding to 4.6 and 4.7?	
Minor REVISION comments		
Optional/General comments
