

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_88154
Title of the Manuscript:	Correlation of Physico-chemical parameters of soil and Soil Nutrient Index Status of Kollam District, Kerala, India
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Kollam District, Kerala, India There are many shortcomings in basing the analyzes and results obtained in this study on the Correlation of Soil Nutrient Index Status and Physico-chemical Parameters of Soil Nutrient Index Status. It is listed that 16 literature is used, but 3 of them are included in the text, this needs to be corrected. The source of the analyzes was not given or given incompletely. Giving it in the form of a table is not enough to explain the work done. I think it would be more appropriate to give the source of the analyzes in the text. Supporting the results obtained in the study with more literature makes the results more acceptable, so more similar studies should be found and the results should be examined.	
Minor REVISION comments		
Optional/General comments	The reorganization of this study, supporting it by adding more literature and stating the compatibility of the results with these literatures will increase the publication value of the study.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
