PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This article is very well founded and organized. the manuscript is solid enough and technically solid because it presents the originality is very clear. In an article of this level, a bibliographic reference should not be indicated as anonymous.	
Minor REVISION comments	An anonymous reference is cited in the introduction part, especially in this type of article there should be no anonymous authors because the idea is that other researchers can use information from their article. Bibliographical references constitute a set of detailed and precise data for the identification of a documentary source, printed or not, from which the information was obtained. The anonymous author should not exist in the bibliography because it would make it difficult for the reader to locate it.	
Optional/General comments	The article is very well founded and organized that has its originality	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details) There are no ethical problems. Honesty, Transparency and Responsibility are complied with.
