

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_88240
Title of the Manuscript:	Phenotypic diversity of finger millet ( <i>Eleusine coracana</i> (L.) Gaertn.) genotypes for grain yield characters
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Abstract</p> <p>L7-L8: need to be adapted to the purpose of the introduction !</p> <p>L13: need an explanation with numbers</p> <p>L17: explanation with numbers is needed in this study</p> <p>Introduction</p> <p>L21: It is necessary to include whose theory's opinion to make it clearer</p> <p>L42: an explanation of the type of cereal being compared needs to be written to make it clearer</p> <p>L51: clarified the name of the cluster referred to in the study so that it is easy to understand</p> <p>Materials and Methods</p> <p>L54: a map of the research location needs to be included to find out the research position</p> <p>L59 : the plan of the planting trial location can be added to the method</p> <p>Result and Discussion</p> <p>L88, L92: the writing of theoretical sources needs to be included in the library and in accordance with the writing</p> <p>L72 etc many library sources have long needed new theoretical sources 5 years from the year this journal was created</p> <p>Conclusion</p> <p>L115: Conclusions are adjusted to the objectives of this study in order to answer the objectives</p> <p>L137: Reference writing should be in accordance with the theory written in this study</p>	
<b>Minor</b> REVISION comments	need improvement before the article is published	
<b>Optional/General</b> comments	<p>-Some information needs references.</p> <p>- The authors have described a research project that has evaluated Phenotypic diversity of finger millet (<i>Eleusine coracana</i> (L.) Gaertn.) genotypes for grain yield characters . This research is very interesting to be developed studies to the scientific . However, the manuscript requires improvements</p>	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
