

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_88745
Title of the Manuscript:	Influence of plant growth regulators and fresh fruit harvesting on quality seed yield of okra
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction is too short, incorporate literature related to factors affecting seed production in okra, and how growth regulators improves seed yield (not fruit yield).</p> <p>Sixty treatments were too much for a single research as it creates complexity. It is better to divide this manuscript into two parts. One is related to effect of growth regulators and spray stage on seed yield. 2nd is impact of fruit picking on seed production of okra.</p> <p>In results portion, again it is difficult for reviewer to differentiate between different treatments effect in table form as no interaction no mean is provided among treatments.</p> <p>Discussion portion: In each parameter result discussion, same logical reasoning is provided which is only related to role of PGRs on seed yield. No scientific reasoning is written about effect of spray stage and fruit picking on seed health etc.</p> <p>Conclusion is missing.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
