	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The article is an original research work describing frontline demonstration for boosting summer moong production in Tarn Taran area of Punjab. It contributes to an important aspect agricultural yield production increase via visits and demonstrations by the experts. Overall, it is a quality article and can be accepted with the following Minor suggested revisions:</p> <ol style="list-style-type: none"> 1. The Literature review part in the Introduction section is very less. It needs to be elaborated with more references; especially pertaining to frontline demonstrations globally and in India. 2. The keywords are traditionally written in alphabetical order separated by semicolons. The author(s) may please take a note of it. 3. In the Materials and Methods Section, a few photographs of the actual crops with and without frontline demonstrations as well as of demonstrations may be included for better understanding. 4. Some discussions on the choices and reasons of farming techniques chosen vis-à-vis farmer's practice should be included in the Materials and Methods section. 5. The paper has a few minor grammar mistakes and formatting issues in the manuscript that need to be resolved. Some of them have been commented upon and highlighted by the reviewer in text for the author(s) to take note of. 	
Optional/General comments
