

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_89399
Title of the Manuscript:	Nutrients Removal in Coconut Plant Components of Cultivar Chowghat Orange Dwarf (COD) and West Coast Tall (WCT)
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

## Review Form 1.6

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>Minor revision</p> <p>Although, the present research is interesting for readers. But, it has flaws that must be fixed.</p> <ol style="list-style-type: none"><li>1. The text of this research should be re-examined and the spelling and grammatical errors should be corrected.</li><li>2. In experimental method, the details of the work should be stated, clearly.</li><li>3. There is also confusion in the results and discussion section. It is better to re categorize first and then analyze the results of this part in detail. It is recommended to add economic analysis to the "results" section.</li><li>4. Is there other parameters to add to the Table 1?</li><li>5. Be sure to change the parts of the "abstract" and "conclusion" according to the standard.</li><li>6. The Tables related to the "results and discussion" section is out of order. Please be sure to bring the "Tables" in the correct form in the text of the article.</li><li>7. To complete the "introduction" part, it is necessary to add other additives such as nanoparticles or etc. In this regard, the following can only be suggested.</li></ol> <p>Technical study of new industrial processes in chemical engineering, ISBN-978-613-8-94735-6, ISBN-6138947355 (Book); Synthesis of SnO<sub>2</sub> and ZnO nanoparticles and SnO<sub>2</sub>-ZnO hybrid for the photocatalytic oxidation of Methyl Orange; Survey on the extraction of oil from olive by supercritical fluid, Journal of FOOD SCIENCE RESEARCH, JOFSR, 1(1), 2016 [010-014]. The Parametric Evaluation of Essence Extracting from Camomile by CO<sub>2</sub> Supercritical, Chemistry Journal, Vol.2, No.2, Apr. 2016, Pub. Date: Jun. 28, 2016.</p>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
