

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_89750
And	Study of Soil Fertility status in KVK farm, Shahjahanpur, Uttar Pradesh, India
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The article is of importance, even more considering that the projection for 2050 is 1.69 billion inhabitants in India. So issues such as food production and food security are a priority. They also include the relationship between the use of natural resources and, in this case, the soil and its condition of fertility and plant production. In order to improve the article, we propose additions to the text. In the results and discussion part, the "discussion" is not developed so we suggest some collocations (in the text). We believe that compliance with the suggested adjustments will contribute to the study being able to help in the elaboration of public policies, by making it more comprehensive.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
