

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Research and Reports in Hematology</a>
Manuscript Number:	Ms_IJR2H_85643
Title of the Manuscript:	Hydroxyurea uptake among children with Sickle Cell Anaemia at a tertiary hospital in Nigeria
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijr2h.com/index.php/IJR2H/editorial-policy> )

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This study enlisted the participation of 88 children. There were 38 (43.2%) males and 50 (56.8%) females, for a male to female ratio of 1:1.3. The subjects' ages ranged from 2 to 18 years. The use of hydroxyurea was significantly higher in the upper socioeconomic class compared to the middle and lower classes. Its use was also significantly higher among those suffering from sickle cell disease complications.	
<b>Minor</b> REVISION comments	Some of the factors to be considered while making effort to improve Hydroxyurea uptake should be affordability and advocacy considering the socio-economic status relationship of users and uptake.	
<b>Optional/General</b> comments		

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
