PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ol style="list-style-type: none">1) There is no comparison with other conservative treatment approaches.2) Although many references are cited in the introduction, the description of the research background is still vague.3) The conclusion is somewhat brief, and the advantages of myofunctional appliance should be expressed in the conclusion.4) Most of the references are not recent, which may make the article lack of novelty and conviction.	
Optional/General comments	<ol style="list-style-type: none">1) The results of the case analysis and the advantages of the myofunctional appliance are not indicated in the abstract.2) The pictures in the article should be marked to highlight the points and improve the recognition.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
